

British Propose Additional Cuts In Marine Wage

Ship Owners Seek Further Reduction in Operating Costs; Pay Now 80 P. C. Over Levels Before War

Organize Against Labor

Steamship Officials Say Capital Levy Will Make an Impossible Handicap

Special Cable to The Tribune
LONDON, Nov. 12.—As an alternative to laying up additional tonnage, with more than 500,000 tons already idle, British shipowners are preparing to ask seamen to accept a further reduction in wages. In the opinion of the shipping officials, no important revival in trade can be expected, due to the worldwide depression and hostile tariffs, and the only way lies in cutting working expenses to a minimum.

The price of bunker coal, insurance rates and the cost of stores have been reduced, dock charges have been increased, and as a consequence the owners expect that another decrease in operating costs will be borne by labor.
